---

## EDUCATION

### **Purdue University Northwest**

*B.S., Computer Science*

**May 2024**

*Hammond, IN*

- **GPA: 3.8**
- Minor in Applied Mathematics

## PROJECTS

### **Music Tracker App**

*Full Stack Developer*

**January 2024 - Present**

*Remote*

- Music Tracker is a Letterboxd-inspired web app for tracking and rating music, and is based loosely upon a project that I developed in collaboration with a classmate.
- Responsible for ideation, **design, development**, testing, and deployment.
  - **Stack:** JavaScript (React), Express, MySQL, and Vercel.
- Incorporated social media functionality, allowing users to follow / unfollow other users, create posts, and edit their account. Designed MySQL database to store album and artist data, and user data. Used Git to manage project versions.

### **Personal Portfolio**

*Web Developer*

**September 2024 - Present**

*Remote*

- Portfolio website to showcase projects that I have previously developed or that I am currently working on. Used Git to manage project versions.
- Duties include design, development, and maintenance.
  - **Stack:** HTML, CSS, JavaScript

## WORK EXPERIENCE

### **Tractor Supply Co.**

*Team Member*

**May 2021 - Present**

*DeMotte, IN*

- Provided customer service, inventory control, management over multiple sections, store-wide sanitation, and forklift operation.

### **SP19 American Kitchen and Bar**

*Fry Cook (April 2020 - May 2021)*

**April 2019 - May 2021**

*DeMotte, IN*

- Prepared and presented food, sanitized work stations, and disposed of waste.

*Dishwasher (April 2019 - April 2020)*

- Prior to my promotion to fry cook, my duties included cleaning and drying dirty dishes and cookware.
