

Elijah Gott

EDUCATION

Purdue University Northwest

B.Sc., Computer Science, GPA: 3.8

Minor in Applied Mathematics

August 2020 - May 2024

Hammond, IN

PROJECTS

[Workout Tracker](#) ([GitHub](#))

August 2025 – September 2025

Full Stack Developer

Remote

Built a full-stack fitness app enabling users to create and log sets, reps, weight, and progress with secure user authentication using JWT and bcrypt.

Created structured MongoDB schema for users, workouts, and exercises and implemented RESTful API endpoints with Express and integrated them with the frontend using Axios.

Developed a responsive React user-interface with dynamic forms and state management.

Managed version control using Git, including branching and merging.

[Music Tracker](#) ([GitHub](#))

January 2024 – June 2025

Full Stack Developer

Remote

Developed a Letterboxd inspired music rating and social app allowing users to follow other users, create posts, and track listened-to music.

Designed and optimized MySQL database schema for users, posts, ratings, and follows with relational models, and implemented custom Express API routes with server-side validation and error handling.

Integrated responsive UI components in React and deployed on Render.

WORK EXPERIENCE

Tractor Supply Co.

May 2021 – Present

Receiving Manager (September 2025 – Present)

DeMotte, IN

Process and document \$8 million worth of inbound and outbound freight while maintaining accurate inventory control and adhering to loss-prevention standards.

Demonstrate strong attention to detail, organization, and time management by completing tasks and all related documentation in a fast-paced environment.

Unload all inbound freight while ensuring safe operation of forklift.

Team Member (May 2021 – September 2025)

Assisted customers and operated registers while providing a positive shopping experience.

Performed janitorial duties and equipment operations in compliance with safety standards.
